

# LS-17

## ADA Value Stationary FM System

### Configurations

LS-17-072-01 (North America)

The LS-17-072 system is an affordable solution to meet the needs of the 2010 Americans with Disabilities Act (ADA) standards for accessible design. In addition to ensuring that public facilities are compliant; the system helps solve frustrating but common sound problems caused by distance, background noise, or poor room acoustics. This installed system includes a Stationary Transmitter, Rack Mounting Kit, a kit to front mount the helical antenna, LR-200 Receivers with Ear Speakers and neck loops, alkaline batteries and Assistive Listening Notification Signage Kit. The system can be ordered only on 72 MHz frequency band, and can be customized if you need additional parts. Backed by Listen, this cost-effective solution will enrich your customers' listening experience in lecture halls, public hearing rooms, playhouses, centers for the performing arts, and more.

### Highlights

- Ensures public venues meet new 2010 ADA requirements and deliver an enriched listening experience.
- Ideal for lecture halls, public hearing rooms, playhouses, centers for performing arts, and more.
- A simple choice between three different channels.
- Economical price - backed by Listen's exceptional service and support.
- Reliable clear sound quality - 62 dB SNR.
