## ADA Standard Stationary IR System

### Configurations

LS-86-01-GY ADA Standard Stationary IR System -Grey (North America)  
LS-86-01-WH ADA Standard Stationary IR System -White (North America)

The ADA Standard Stationary IR System is designed for applications that are looking for a secure solution to meet the requirements of the 2010 Americans with Disabilities Act (ADA) standards for accessible design. In addition to ensuring that public facilities are compliant; the system helps solve frustrating but common sound problems caused by distance, background noise, or poor room acoustics. This system includes both types of receiver, Neckloops, earphone, transmitter, rack mount kit, and Assistive Listening Notification Signage Kit, and can be easily customized to meet the needs of any public assembly area. The system contains all of the items to be fully integrated with your existing sound system. Great solution to enrich your customers' listening experience in courtrooms, classrooms, public hearing rooms, legislative chambers, centers for the performing arts, or convention centers.

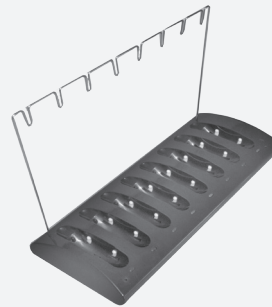

### Highlights

- Meet the requirements of the new 2010 ADA standards and deliver an enriched listening experience.
- Secure wireless communication - for applications where isolation of the signal is important.
- Accommodates up to four (4) listeners –system can be designed to meet the needs for any venue.
- Outstanding coverage – 10,000 ft<sup>2</sup> (929 m<sup>2</sup>) per radiator.
- Easy to specify, install and use.
- Outstanding performance ensures crystal clear sound for listeners.
- Try before you buy – free no obligation 30-day demo.

### Accessories\*

#### 8-Unit IR Charging/Storage Station

Simple solution for charging batteries and for storage/distribution of IR receivers. It holds up to eight (8) LR-42 stethoscope and/or LR-44 lanyard receivers. It can separately charge up to eight (8) NiMH battery packs.

#### LA-364 NiMH Rechargeable Battery Pack for IR Receivers

Used with the LR-42 stetho and LR-44 lanyard receivers. Offers the user the ability to use the pack to power the receivers.

#### LA-165 Stereo Headphones

Dual ear, over-the-head style earphones provide clear sound to both ears. The headphones provide users with a traditional way of hearing your message.

#### LA-363 High Capacity AAA Alkaline Batteries (2)

Batteries come in a package of two (2). Easy to replace and offer the user many hours of operation.
